

Welcome to Cape May National Golf Club, one of the most natural golf courses ever built. Cape May National started a new trend in golf from protecting the environment to the design of golf courses back to the classic championship courses of the turn of the century. In fact, Cape May National goes back to its roots to the late 1800's and its predecessor, Cape May Country Club.

The course surrounds one of the largest private bird sanctuaries in the state of New Jersey. There are no houses - pure golf at the championship level, one of the most beautiful locations in the state.

We welcome you and appreciate you being our guest. Please, if you have any questions, comments about the course, its design or your treatment by our staff, please let me know.

Yours truly,
Robert E. Mullock
President, Co-designer
